

REGIONAL RESOURCE ASSESSMENTS

Southeast Region

Massachusetts Alliance for Economic Development

April 2008

Moran, Stahl & Boyer

Connecting Companies With Communities™

E.M. Pemrick & Company

Topics for Discussion

- Economic development resource assessment process
- Target industries by region
- Life cycles of businesses and impact on resource needs
- Regional assessment
- Quality of life: cost of living and housing
- University R&D that supports target industries
- College and university enrollment as a labor source
- Transportation resources
- Real estate and utilities

Economic Development Resource Assessment Approach

Identify Target Industries:
- Biotechnology/Health Science
- Institutional Health/Education
- Computers/Electronics
- Plastics
- Fabricated Metals
- Financial Services
- Marine Science
- Renewable Energy
- Tourism

EXAMPLES

Select Life Cycle Stages:
- Initial Product Development (R&D)
- Business Incubator (Start-ups)
- Product/Business Expansion

Determine Types of Operations:
- Headquarters
- Shared Services/Consultants
- R&D/Labs
- Manufacturing
- Distribution

Aligning Industry Needs
With Community Resources

Define Resources:
- Facilities/Utilities
- Workforce
- Transportation Access
- Co-Location (With R&D, Others)
- Financial Support/Operation Costs
- Overall Business Climate
- Cost of Living/Housing

Target Industry Overview by Region

Industry/Segment	Berkshire	Western	Central No.	Central So.	Metro West	Merrimack Valley	Greater Boston	Southeast	Cape & Islands
■ • Biotech/Pharmaceuticals		■		■	■	■	■	■	
■ • Medical Equipment		■			■	■		■	
■ • Marine Science								■	■
■ • Computers/Electronics		■			■	■			
■ • Food Processing			■					■	
■ • Fabricated Metals		■		■					
■ • Plastics (Resin/Parts/Products)	■	■	■						
■ • Renewable/Alternative Energy	■	■			■	■		■	■
■ • Aerospace/Defense/Security					■	■	■		
• Institutional Healthcare Services		■		■	■		■		
• Institutional Education Services				■			■		■
■ • University R&D		■		■			■		
■ • Financial Services		■			■		■		
■ • Prof/Tech/Creative/IT Services*	■	■			■	■	■		■
• Transportation/Distribution								■	
• Hospitality/Rec./Culture/Tourism	■	■					■	■	■
• Mgmt. of Companies/HQ					■		■		

■ State Target Industry

*Many Prof/Tech/Creative/IT Services companies are very small and operated from homes.

Employment by Selected Industry Segment (U.S. Department of Labor for 2005)

Industry	Total	Berkshire	West	Central No.	Central So.	Metro West	Merrimack Valley	Greater Boston	Southeast	Cape & Islands
Manufacturing	299,300	6,200	31,900	15,500	27,700	58,800	44,200	65,800	46,200	2,400
• *Medical Instruments*	12,000	0	900	20	1,100	3,100	1,100	2,700	2,900	0
• *Pharmaceuticals*	15,700	800	4,000	3,500	1,800	800	1,600	900	1,800	100
• *Computers/Electronics*	71,200	30	1,800	1,800	4,500	30,600	14,800	13,300	4,000	600
• *Food Processing*	22,900	200	2,200	800	700	2,800	2,500	8,600	4,800	400
• *Fabricated Metal*	35,200	500	6,300	1,400	4,700	4,500	3,400	6,100	4,700	200
• *Plastics*	15,700	800	4,000	3,500	1,800	800	1,600	900	1,800	100
• *Textiles*	6,400	200	400	200	700	900	400	300	2,600	10
• *Paper*	12,300	1,500	3,600	1,800	1,000	1,300	1,000	2,000	1,200	0
• *Furniture*	5,500	30	600	700	900	900	400	1,200	700	130
Healthcare Services	470,700	10,600	47,300	10,800	39,400	53,400	31,900	200,400	59,400	15,700
Education Services	309,800	6,800	40,000	9,400	26,500	48,600	21,500	114,800	33,600	7,600
Financial Services	180,600	2,100	1,700	1,700	12,300	21,400	6,400	109,100	12,200	2,700
Prof/Technical Services	245,900	2,800	8,000	2,600	12,100	59,600	18,600	117,700	13,400	4,900
Transportation/Ware.	100,600	1,200	11,000	2,300	8,000	9,300	7,000	45,200	13,200	2,800
Retail	351,100	8,800	34,300	10,500	29,000	55,300	20,900	109,500	61,800	19,100
Hospitality	250,000	7,100	21,600	6,100	18,300	33,900	17,200	93,200	35,500	16,500
Arts & Entertainment	52,000	1,800	5,100	1,700	3,200	9,300	3,400	16,100	7,200	3,900
Mgmt. of Companies	62,400	700	4,200	1,100	5,000	20,600	3,900	18,100	8,000	700

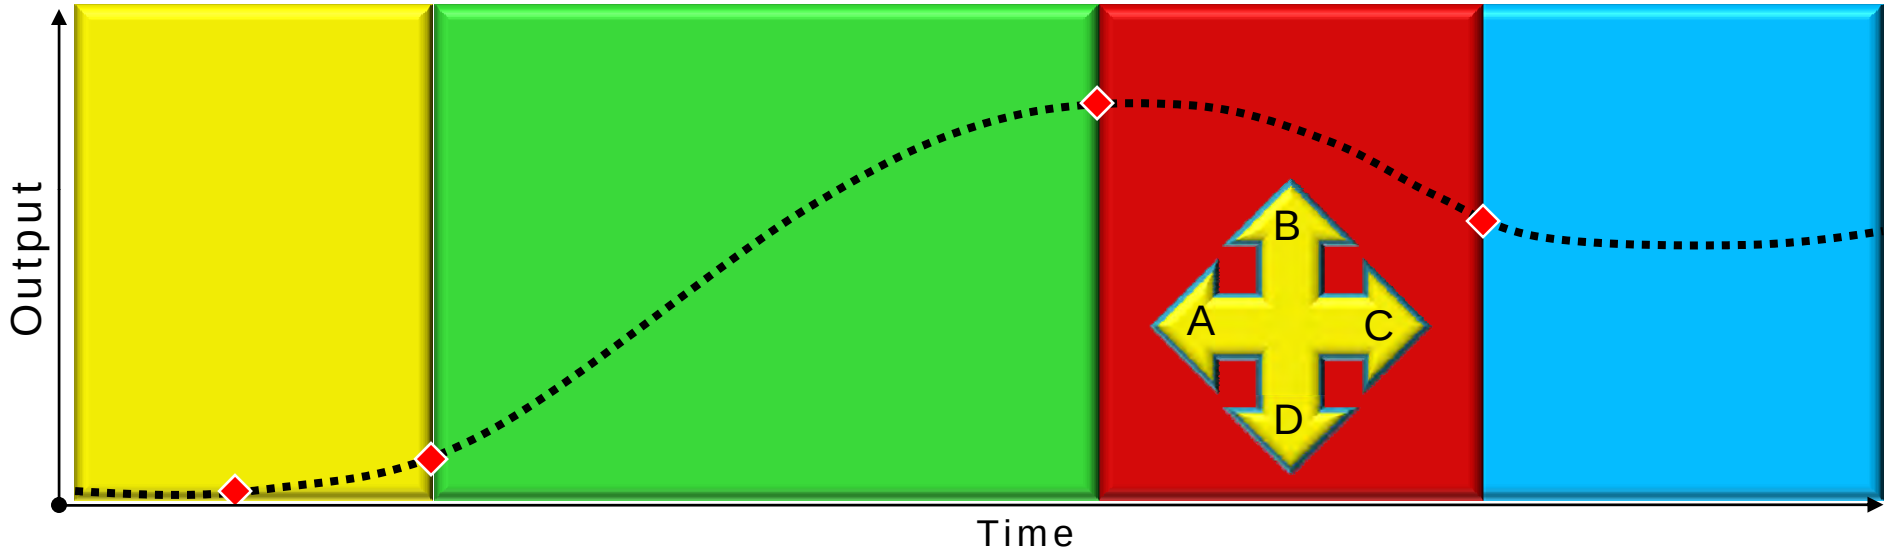

Company/Product Life Cycle: Key to Understanding Opportunities

Phase I
Business Start-up & Product Rollout

Phase II
Rapid Market Growth Through Internal Expansion and Acquisition

Phase III
Maturation & Consolidation

Phase IV
Sustained Niche or "Last One Standing"

Start-up Capital > Labor/Facilities/Capital > Minimize Cost > Sustained Market

Critical Decisions Made in Phase III

A: Attempt to go back to Phase II (new market expansion/product improvements)
B: Consolidate with competition to grow share in a shrinking market
C: Go/stay private with niche operation and proceed to Phase IV
D: Continue to enhance productivity to sustain margins (production improvements/cost takeouts)

Facility Requirements Through Life Cycle of Technology Company

Phase I Business Start-up & Product Rollout	Phase II Rapid Market Growth Through Internal Expansion and Acquisition	Phase III Maturation & Consolidation
Initially: Full service incubator Transition to: Multi-tenant building with some shared facilities • Parking facilities • Conference rooms • Café • Locker/exercise room	As Business Expands: HQ, R&D, back office and manufacturing operations are uncoupled and placed in the most optimum locations for cost and market access	At Maturity: Cost becomes an overriding issue for most operations

Life Cycle Stages by Target Industry

Target Industry Overview: Biotechnology/Life Sciences

Definitions

Life Science : The overlying field of study that engages in the classification, structure and behavior of living organisms that includes biology, biochemistry, biotechnology, medicine and pharmacology.

Biotechnology : Involves the genetic manipulation and modification of living organisms to create new and practical applications for agriculture, medicine and industry.

Evolution in Strategic Approach

Successful Detection and Treatment of Disease → Early Detection: Minimize Spread of Disease → Prevention: Detect Predisposition and Preempt Disease through Nutrition, etc.

Key Steps in Product Development

Support Materials, Equipment and Services

- Lab Instruments/Equipment
- Materials and Supplies
- Lab/Testing/Clinical Services
- Technical/Legal Services
- Bioinformatics

Government, Industry and University Labs

- Primary Research
- Applied Research
- Product Development
- FDA Approval
- Commercialization

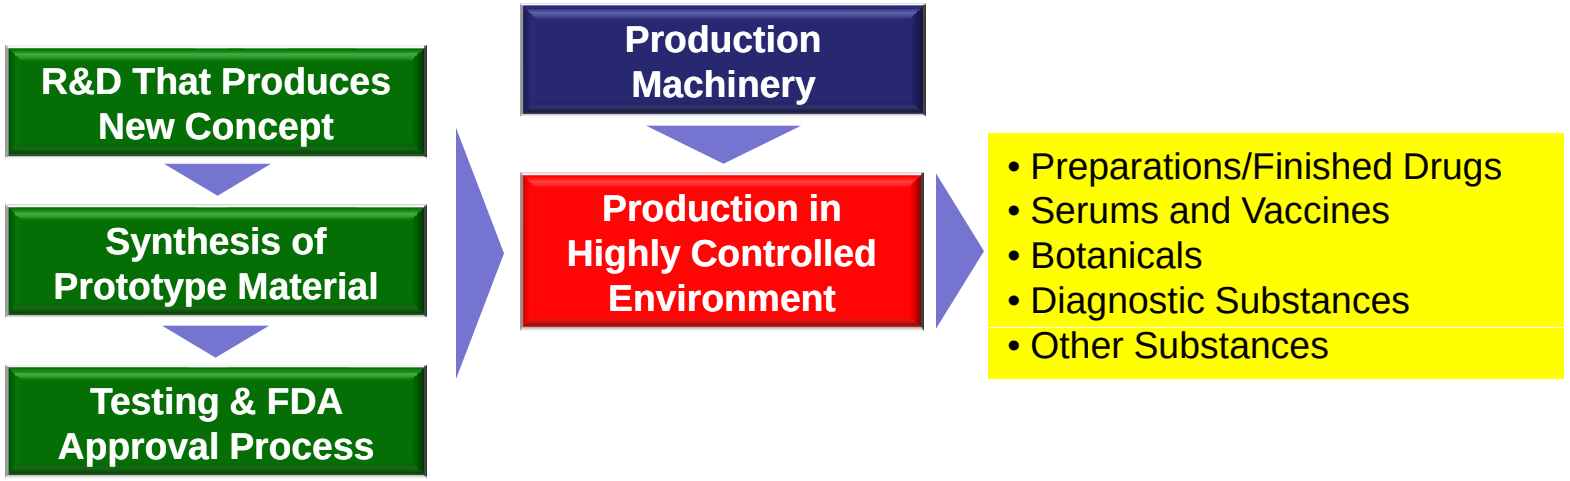

- Materials/Substances
- Instruments/Devices/Equipment
- Processes/Procedures

Target Industry Overview: Pharmaceuticals/Medicines (NAICS 3254)

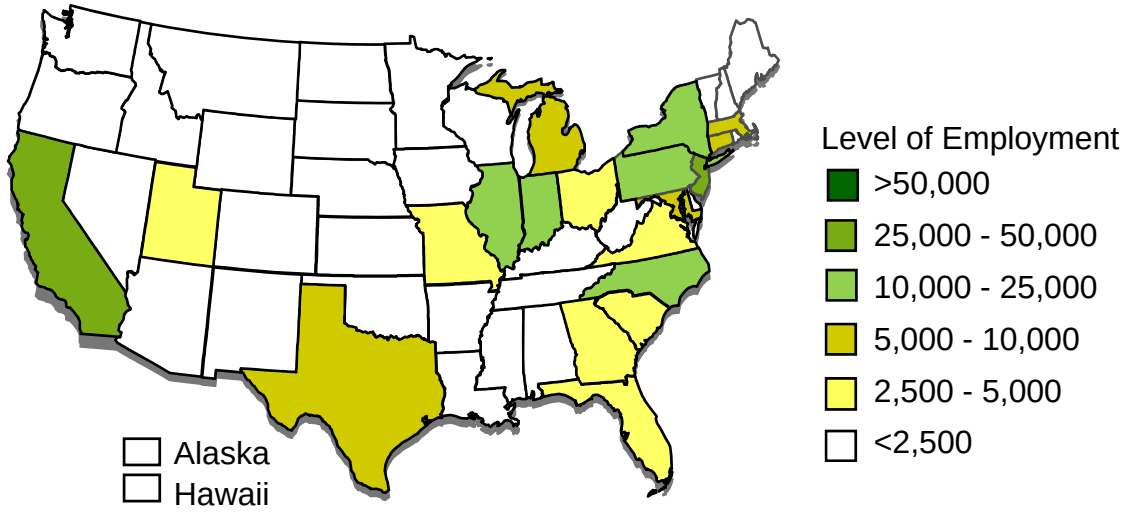

Industry Profile and Trends

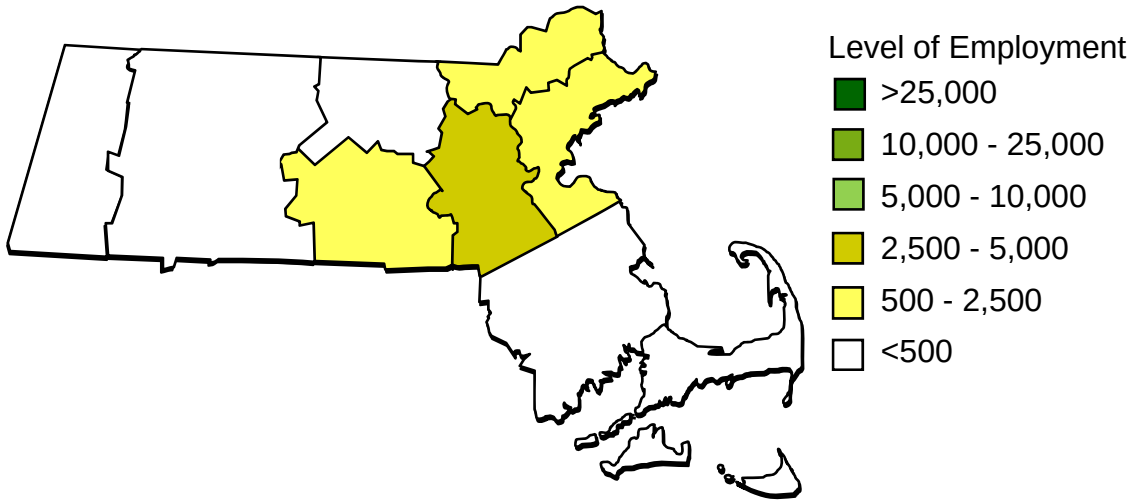

- U.S. has 53.5% of the global pharmaceutical market
- Industry has one of the highest levels of commercial R&D investment
- Major pharma firms have 50% market share, balance is fragmented
- Major issues: patent expirations, long/expensive development periods, product safety/recall issues, and moral/ethical issues on gene manipulation and trials in third-world countries
- Trends: miniaturization of sample sizes reduce cost, use of automation and robotics, application of nanotechnology for precise product delivery
- Use of bioinformatics to design and pre-test drugs

Target Industry Overview: Pharmaceuticals/Medicines (NAICS 3254)

Pharma./Medicine (3254)			
State	2006	2000	Change
USA	233,459	240,711	-3.0%

GA	2,769	2,612	6.0%
KS	2,475	1,466	68.8%

Target Industry Overview: Medical Equipment and Supplies (NAICS 3391)

Industry Profile and Trends

- U.S. has 75% of global market share
- Industry highly competitive, price sensitive with rapid advances
- High barriers to entry due to R&D costs, acute expertise, patent protection and the need for FDA approvals
- A few very large competitors and many niche players
- Process improvements (laser machining) and high interest in nanotechnology for multiple applications
- Many new products related to catheter design, minimally invasive surgical tools, wound-care/closure, and adaptable instruments

R&D That Produces New Concept

Design/Build Prototype

Testing & FDA Approval Process

Design and Build Components
- **Plastics/Rubber**
- **Metallic**
- **Other Materials**

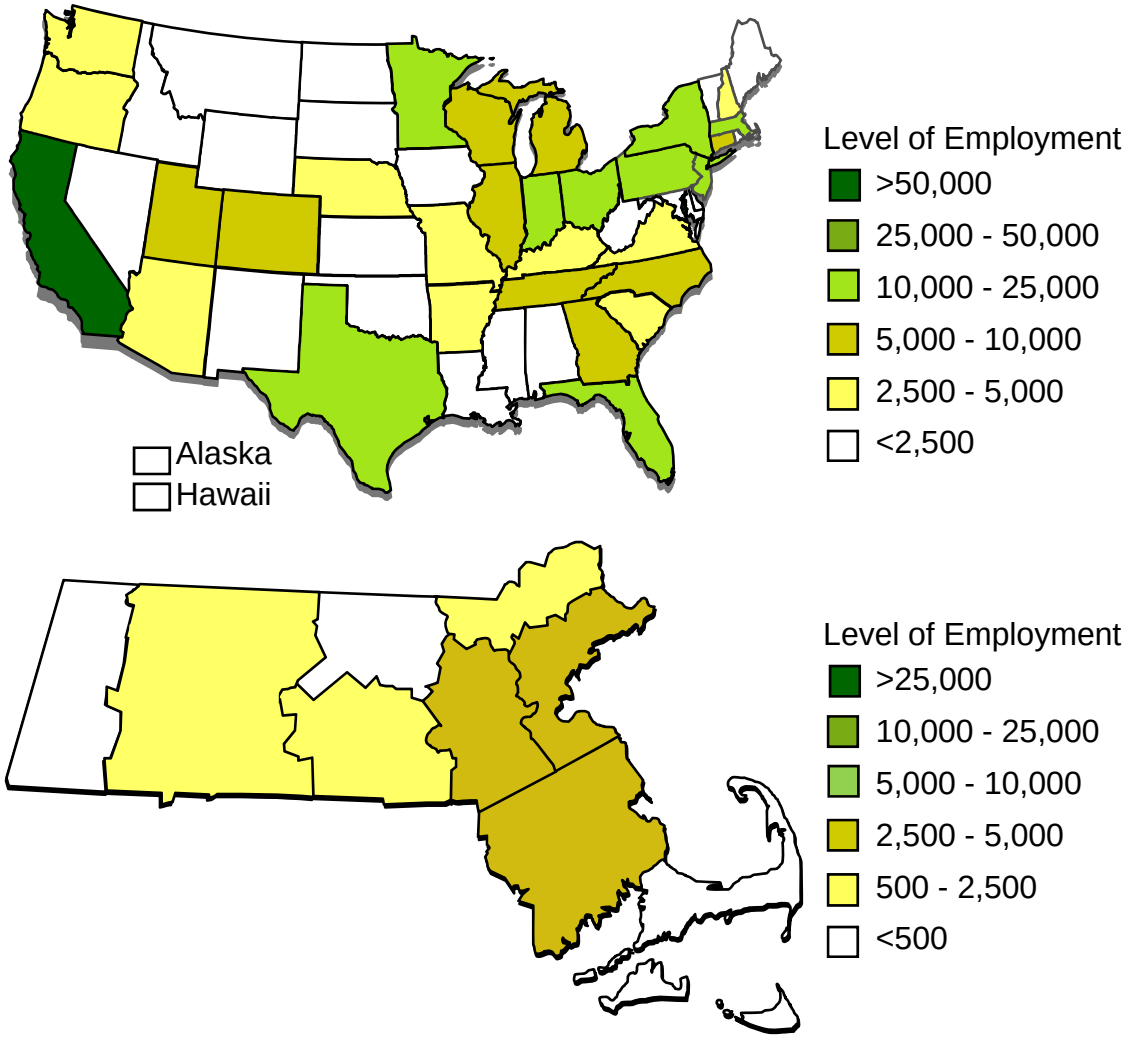

Production Machinery

Final Assembly and Quality Control

- Detection/Imaging Devices
- Testing Kits
- Prosthetic/Replacement Devices
- Implants/Delivery Systems

Target Industry Overview: Medical Instruments and Supplies (NAICS 3391)

Southeast Region

Target Industries vs. Life Stages and Types of Operations

Industry	Life Stage(s)	Types of Operations
Biotech/Pharmaceuticals	• Start-up and small emerging firms • Well established MA firms relocating to area to take advantage of lower costs	• R&D • Manufacturing
Medical Equipment	• Start-up of new firms • Expansion of existing firms • Well established MA firms relocating to area to take advantage of lower costs	• R&D • Manufacturing
Marine Science	• Start-up of new firms • Expansion of existing firms • Well established firms relocating to area to gain access to R&D at Woods Hole	• R&D • Manufacturing
Food Processing	• Start-up of new firms • Expansion of existing firms	• Manufacturing
Renewable Energy	• Start-up and small emerging firms	• Small offices with combined business and ”technical” functions
Distribution	• Well established firms relocating to area to gain access to the MA/northern NE market.	• Warehousing

Resource Assessment by Type of Operation

Type of Operation/Resources	Resource Assessment
Manufacturing	
Labor	• Six-year population growth in New Bedford area is low (1.3%), but higher than state average (0.67%) and in the Brockton area (-1.3%) • In general, there is a good supply of manufacturing labor derived from a diverse industrial base. • Adult population high school only education attainment is ~26% • Recruiting highly specialized and younger talent into the area can be an issue.
Real Estate/Facilities	• Ample supply of land and buildings in modern business parks, but vacant sites for industrial development are becoming scarce.
Utilities	• Varied electric power costs . . . major factor for manufacturers. Some municipal utilities in the region.
Transportation	• Excellent interstate access (I-195, I-495, SR 24 & 140) • Rail access available in selected areas
University Research	• Not required for this operation
Cost of Living/Housing	• Overall Cost of Living Index is 103 and for Housing is only 82. (U.S. average = 100). Limited housing product is being built in the region.
Incentives/Other Financial Resources	• Larger communities including New Bedford and Fall River offer microenterprise loans and low-interest gap financing to individual businesses. • Fall River's "50" Fund provides 100% financing opportunities to startup ventures and existing small businesses. • The South East Economic Development (SEED) Corporation has a venture capital loan pool.

Resource Assessment by Type of Operation

Type of Operation/Resources	Resource Assessment
Small offices with combined business and "technical" functions	
Labor	• Six-year population growth in New Bedford area is low (1.3%), but higher than state average (0.67%) and in the Brockton area (-1.3%) • Adult population four-year+ college education attainment is 13.8% (very low) • Recruiting highly specialized and younger talent into the area can be an issue.
Real Estate/Facilities	• Office vacancy rates in the low single digits. • Mix of urban and suburban locations, in downtowns and business parks.
Utilities	• Varied electric power costs . . . major factor for manufacturers. Some municipal utilities in the region.
Transportation	• Excellent interstate access (I-195, I-495, SR 24 & 140) • Rail access available in selected areas
University Research	• Not required for this operation
Cost of Living/Housing	• Overall Cost of Living Index is 103 and for Housing is only 82. (U.S. average = 100). Limited housing product is being built in the region.
Incentives/Other Financial Resources	• Larger communities including New Bedford and Fall River offer microenterprise loans and low-interest gap financing to individual businesses. •Fall River's "50" Fund provides 100% financing opportunities to startup ventures and existing small businesses. •The South East Economic Development (SEED) Corporation has a venture capital loan pool.

Resource Assessment by Type of Operation

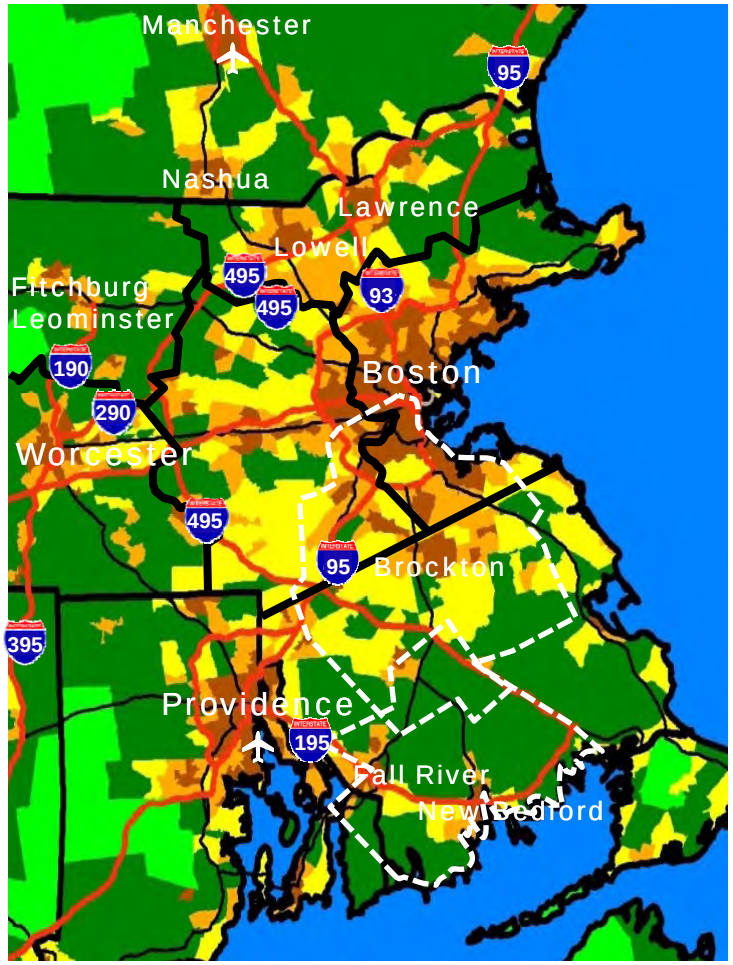

Type of Operation/Resources	Resource Assessment
R&D Operations	
Labor	• Six-year population growth in New Bedford area is low (1.3%), but higher than state average (0.67%) and in the Brockton area (-1.3%) • Adult population four-year+ college education attainment is 13.8% (very low) • Recruiting highly specialized and younger talent into the area can be an issue. • Opportunity to recruit locally from UMass-Dartmouth and Woods Hole Oceanic Institute
Real Estate/Facilities	• Incubator space for technology-based companies available at UMass Dartmouth's Advanced Manufacturing and Technology Center and at the Quest Center in New Bedford. • Land and buildings available at modern industrial parks. • Opportunities for revitalization of old mill buildings for R&D.
Utilities	• Power not a major issue for R&D operations, but backup may be needed. • Water quality can be an issue for certain types of operations.
Transportation	• Excellent interstate access (I-195, I-495, SR 24 & 140) • Rail access available in selected areas
University Research	• Opportunity to partner locally with UMass-Dartmouth and Woods Hole Oceanic Institute, Brown University • Distance partnering with Boston area universities
Cost of Living/Housing	• Overall Cost of Living Index is 103 and for Housing is only 82. (U.S. average = 100). Limited housing product is being built in the region.
Incentives/Other Financial Resources	• Larger communities including New Bedford and Fall River offer microenterprise loans and low-interest gap financing to individual businesses. • Fall River's "50" Fund provides 100% financing opportunities to startup ventures and existing small businesses. • The SEED Corporation has a venture capital loan pool.

Resource Assessment by Type of Operation

Type of Operation/Resources	Resource Assessment
Warehousing Operations	
Labor	• Six-year population growth in New Bedford area is low (1.3%), but higher than state average (0.67%) and in the Brockton area (-1.3%) • In general, there is a good supply of labor for warehousing operations • Unemployment rate for 2007 was 6.1% in New Bedford area • Adult population high school only education attainment is ~26%
Real Estate/Facilities	• Ample supply of land and buildings in modern business parks, but vacant sites for industrial development are becoming scarce.
Utilities	• Varied electric power costs . . . not a major factor for warehousing operations. Some municipal utilities in the region.
Transportation	• Excellent interstate access (I-195, I-495, SR 24 & 140) • Rail access available in selected areas
University Research	• Not required for this operation
Cost of Living/Housing	• Overall Cost of Living Index is 103 and for Housing is only 82. (U.S. average = 100). Limited housing product is being built in the region.
Incentives/Other Financial Resources	• Larger communities including New Bedford and Fall River offer low-interest gap financing to individual businesses.

Population/Demographics

Population (2006)	
• 30-minute commute zone around Brockton	1,359,000
• 30-minute commute zone around New Bedford	325,000
Population growth (2000 - 2006)	
• 30-minute commute zone around Brockton	-1.3%
• 30-minute commute zone around New Bedford	1.3%
• State average	0.67%
• National average	6.4%
Adult population with High School diploma only	
• 30-minute commute zone around Brockton	27.6%
• 30-minute commute zone around New Bedford	26.3%
• State average	28.2%
• National average	30.2%
Adult population with four-year+ college	
• 30-minute commute zone around Brockton	32.8%
• 30-minute commute zone around New Bedford	13.8%
• State average	37.0%
• National average	27.0%
Percent of Population in 25 - 34 cohort	
• 30-minute commute zone around Brockton	14.2%
• 30-minute commute zone around New Bedford	13.5%
• State average	12.7%
• National average	13.3%

Population Concentration

< 100 | 100-499 | 500-1,000 | 1,000-2,500 | >2,500

30-minute commute zone

Population/Demographics

Median Age	
• Brockton	35.5 years
• New Bedford	33.6 years
• State average	38.3 years
• National average	36.4 years
Median Household Income	
• Brockton	$46,343
• New Bedford	$33,200
• State average	$59,963
• National average	$48,451

Labor Supply and Cost

Job Title	Code	Median Salary (U.S. Average)	Median Salary (State Average)	Median Salary (New Bedford)	Employment Level (New Bedford)
Financial Services					
Accountants/Auditors	13-2011	$60,670	$62,060	$50,750	280
Financial Analysts	13-2051	$77,280	$83,850	$64,650	40
Engineering/Science					
Computer Programmers	15-1021	$69,500	$76,660	$80,160	40
Mechanical Engineers	17-2141	$72,580	$82,930	$67,760	60
Administrative					
Customer Service Reps.	43-4051	$30,400	$36,980	$28,490	670
Production					
Machinists	51-4041	$35,810	$40,560	$40,300	140
Inspectors/Testers	51-9061	$32,190	$36,840	$26,700	300

Unemployment Rates

Location	2001	2003	2005	2007
New Bedford MSA	5.4%	7.7%	6.8%	6.1%
Massachusetts Average	3.7%	5.8%	4.8%	4.7%
U.S. Average	4.7%	6.0%	5.1%	4.6%

Major Non-Government Employers

Target Industry Employer

Company/Organization	Description	Employment Range
SouthCoast Health System	Health care services	5,000 +
Mitsubishi Lithographic	Wholesale printing equipment	2,500 – 5,000
Morton Hospital & Medical Center	Health care services	1,000 – 1,500
University of Mass. - Dartmouth	Higher education	1,000 – 1,500
Saint Anne's Hospital	Health care services	1,000 – 1,500
Sturdy Memorial Hospital	Health care services	1,000 – 1,500
Sensata Technologies	Headquarters of sensors and controls mfr	1,000 – 1,500
Labor Systems Temporary Services	Employment services	1,000 – 1,500
Bristol Community College	Higher education	500 – 1,000
A.J. Wright Distribution Center	Transportation and warehousing	500 – 1,000
Acushnet Co. (Titleist brand)	Sporting goods manufacturing / headquarters	500 – 1,000
Chadwick's of Boston	Distribution & fulfillment for catalog retailer	500 – 1,000
Genlyte Group, Inc. (Lightolier)	Lighting fixtures manufacturing / headquarters	500 – 1,000
General Dynamics C4 Systems	Communications manufacturing / defense	500 – 1,000
Hallsmith-Sysco Food Service	Transportation and warehousing (food svc)	500 – 1,000
DePuy Spine, Inc.	Headquarters of medical device mfg co.	250 - 500
Lockheed Martin Sippican, Inc.	Electronics manufacturing / defense	250 – 500
Stern-Leach Co.	Jewelry and precious metal manufacturing	250 – 500
American Dryer Corp.	Machinery manufacturing / headquarters	250 - 500
Reed & Barton	Silversmith manufacturing	250 – 500

Major Non-Government Employers

Target Industry Employer

Company/Organization	Description	Employment Range
Gold Medal Bakery, Inc.	Bakery products manufacturing	250 – 500
Ocean Spray Cranberries, Inc.	Headquarters of juice drink manufacturer	250 - 500
AGAR Supply Co.	Transportation and warehousing (food svc)	250 – 500
Teleflex Medical	Medical device manufacturing	250 - 500
Eagle Industries	Apparel manufacturing / defense	250 - 500
Joseph Abboud Manufacturing	Apparel manufacturing / headquarters	250 - 500
Five Star Surgical	Medical instruments manufacturing	100 - 250
AVANT Immunotherapeutics	Pharmaceutical manufacturing	100 - 250

Recent Developments

Company	Description
MediTech (Medical Technology Information Inc.)	• Constructing a new $40 million, 128,000 sf facility that will bring 500-600 jobs to Fall River; opening April 2008. • Company is one of the oldest privately held computer software companies in the world, serving physicians, nurses, and other health care clinicians.
Titleist, ASE Cable Systems, Symmetry Medical, and Vectrix Corporation	Several companies invested in facilities at the New Bedford Industrial Park in the last year: • Golf ball maker Titleist expanded its existing production facility by 38,000 sf. • ASE developed a new 202,000-sf manufacturing and warehouse complex. • Symmetry Medical acquired a 82,000-sf facility for orthopaedic instrument manufacturing. • Vectrix, maker of the world's first high performance, two-wheel zero emission vehicle, moved into a 65,000 facility; New Bedford is now the company's primary facility for R&D, dealer training, and warehousing and distribution for the North American market.
Samsonite	• Consolidated its Rhode Island and Colorado operations into a newly expanded facility in Mansfield. • Company expects to create 65 new jobs in the coming year.
LaFrance Hospitality Co.	• A 100-room mid-scale hotel is planned to open early in 2009 on a 1.6-acre parcel on New Bedford's waterfront. • Hotel site is near the New Bedford Whaling National Historical Park and the historic core of the city, where an increasing number of galleries, shops and restaurants have contributed to the vitality of the downtown.

Utilities and Real Estate

Utilities	Supply-Related Issues
Water	Plenty of capacity to support economic development; municipal water available in most communities… although water system improvements are needed.
Wastewater Treatment	Plenty of capacity to support economic development, although sewer system improvements are needed.
Telecom/Broadband	No issues identified. Fiber optic telecommunications infrastructure throughout the region.
Gas	No issues identified.
Electric Power	Most communities served by National Grid or NStar Electric & Gas; NStar's electric rates are among the highest in the nation. Taunton is served by its municipally-owned utility provider at $0.10 per kilowatt-hour.

Real Estate	Supply-Related Issues
Office Space	Vacancy rates in the low single digits.
Industrial Space	Ample supply of land and buildings in modern business parks, but vacant sites for industrial development are becoming scarce. Demand has been consistent, driven by the region's accessibility and relative affordability.
R&D Space	See above.
Incubator Space	Available at the Technology Venture Center, within UMass Dartmouth's Advanced Manufacturing and Technology Center, and the Quest Center, New Bedford's marine science and technology incubator.
Other	An abundant supply of underutilized mill buildings, especially in Fall River, that will require significant rehabilitation to bring back into service.

Quality of Life

Young Knowledge Worker's Basis for Location Decision

Job and Career-Related

- Familiarity with company (based on friends input, reputation or internship)
- Job content (challenging and interesting)
- Employment options if current job lost or doesn't meet needs
- Ability to pursue further education
- Spouse/significant other employment options
- Minimize commute distance

Life Style-Related

- Access to other young adults (size of cohort locally and places to meet people)
- Access to family and friends
- Recreational/cultural venues and events . . . "cool" place to live
- Affordability (particularly housing)
- The weather: impact on outside activities and culture

Locational needs shift with life stage:

Unmarried ▶ Married Without Children ▶ Married With Children

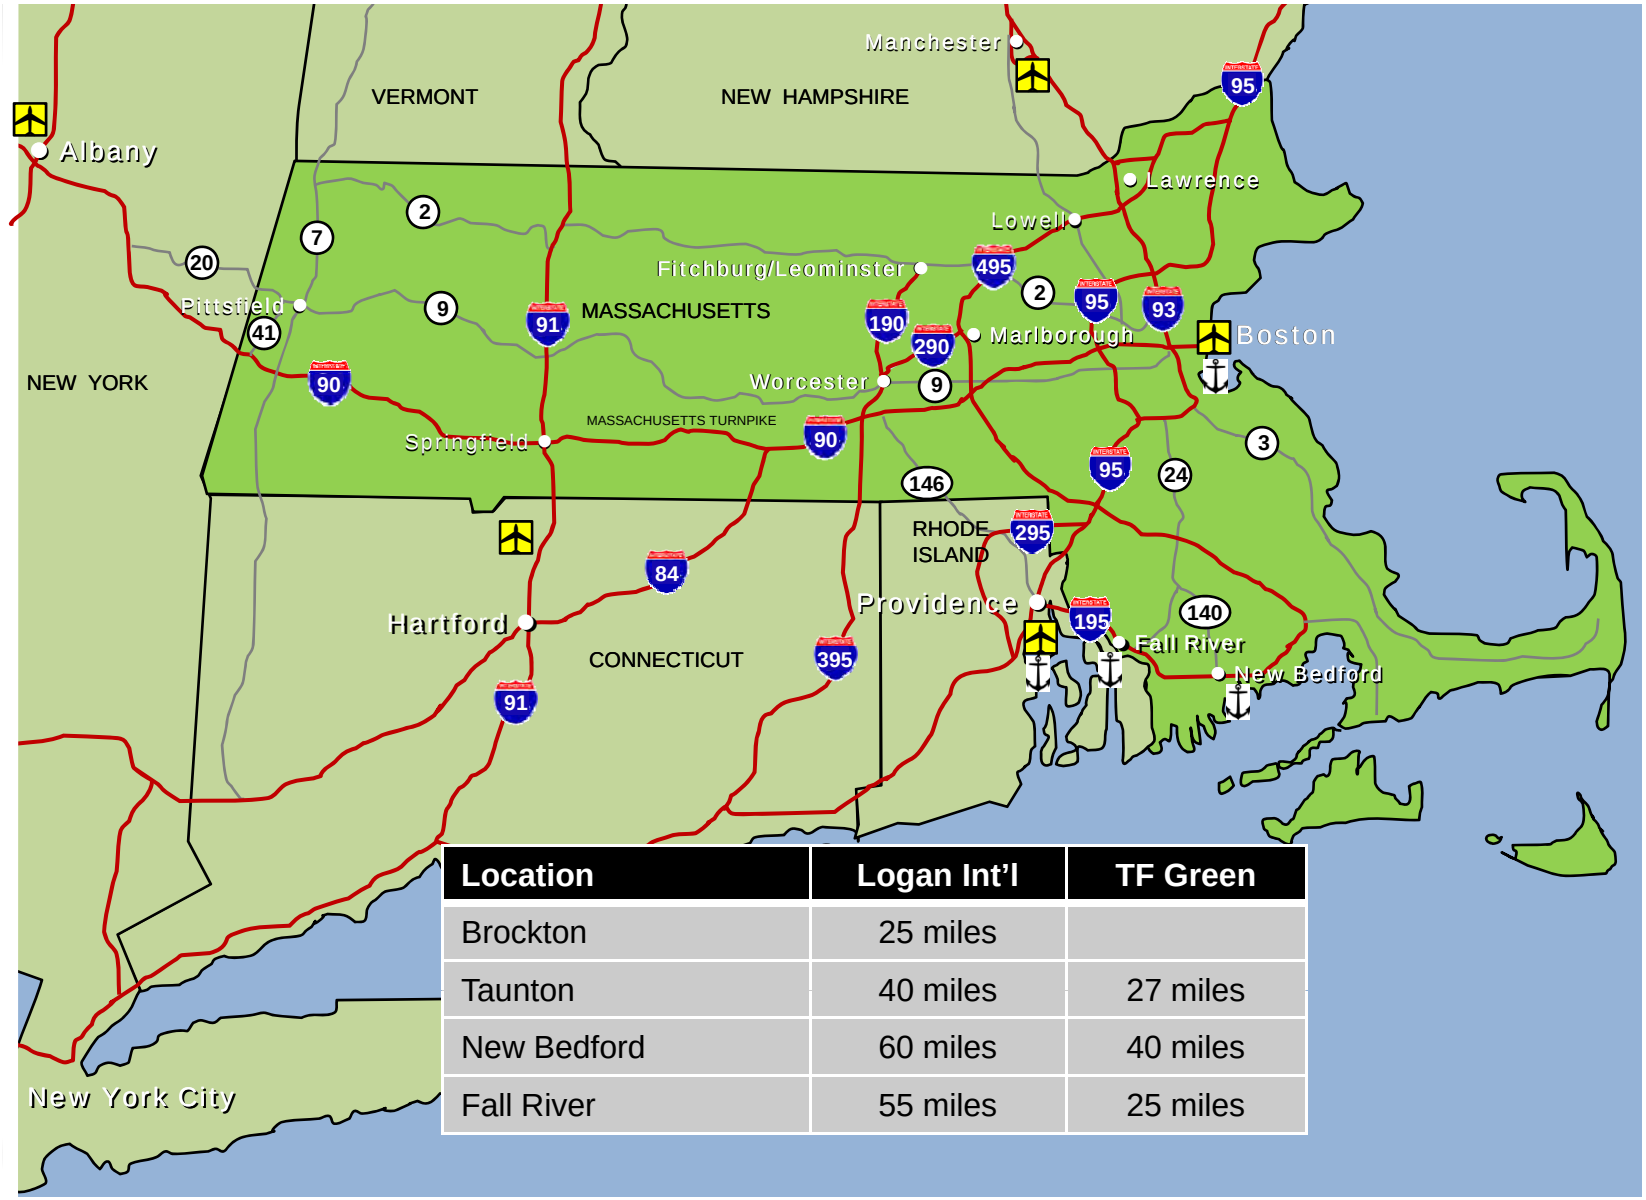

Transportation

• Hospitality/Rec./Culture/Tourism	■	■	■		■
• Mgmt. of Companies/HQ	■	■	Backup Power		Data Center

■ State Target Industry

Significant/Special Requirements

Comparison of Average Energy Cost to Industrial Users (cents/kilowatthour)

Source: Energy Information Administration

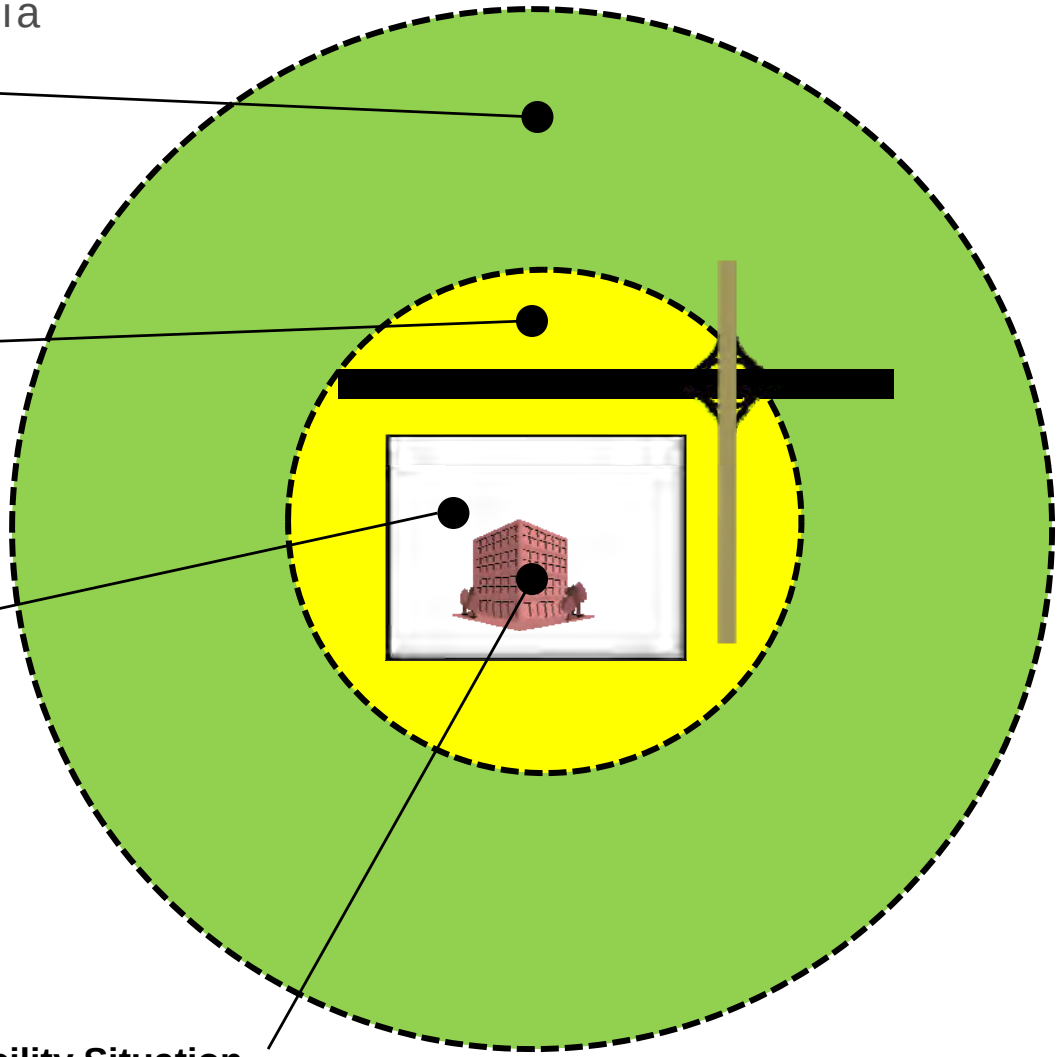

High energy costs forces the imperative of a focus on renewable energy.

Location/Site Assessment Criteria

Level 1: **Proximity (30-45 minutes)**
- Labor resources (education/demographics)
- Quality of life/housing costs
- Business/R&D partners
- Airport access

Level 2: **Local Access**
- Distance to limited access highway
- Public transportation access
- Restaurants/shopping/services
- Business services
- Sensitive areas for trucks

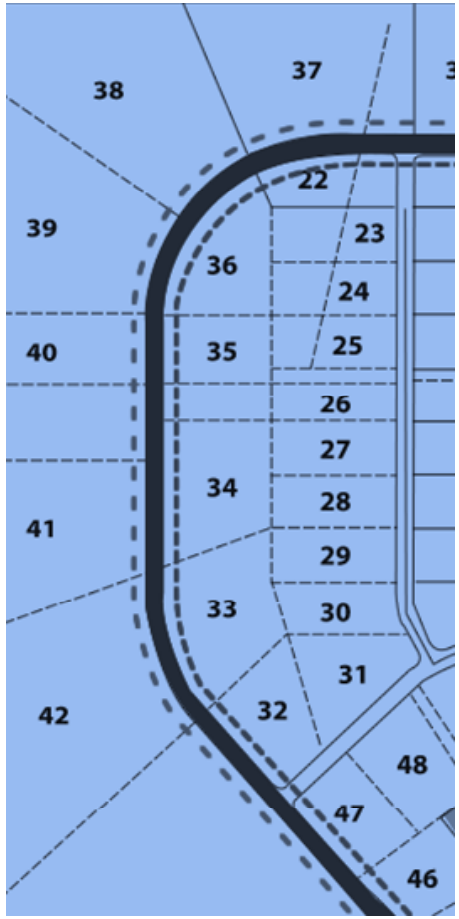

Level 3: **Site Conditions**
- Overall size of site/lot sizes
- Options for future expansion
- Wetlands/flood plains/soil
- Utility capacity, cost, backup
- Zoning/adjacent site use
- Road access and condition
- Rail access (some industrial)
- Level of site readiness

Level 4: **Facility Situation**
- Size/age/condition of structure
- Layout/types of space/flexibility
- Cost and buy vs. lease options
- Level of Readiness

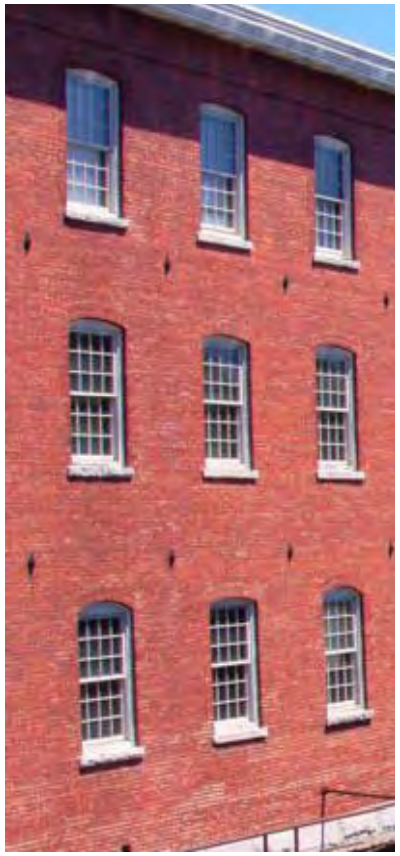

Levels of Site Readiness for Suburban Sites

Description of Readiness Levels	Time to Move-In
1. Completed building ready for painting and carpeting	3 to 4 months
2. Building shell in place or existing building needing modest renovation	6 to 9 months
3. Developed site with virtual permitted building	12 to15 months
4. Developed site ready for building construction • Lots defined and graded • Roads and utilities in place with service to lots • Some permits secured and covenants defined	18 months
5. Undeveloped site (“Shovel Ready”) • Ownership/title cleared and ready for sale • Proper zoning in place • Surveys/studies completed • Permitting agencies poised for approvals • Infrastructure within reasonable access • Compatible adjacent land use • Conceptual site plan and covenants	18 to 24 months
6. Zoned land in hands of original owner	> 24 months

Levels of Site Readiness for Urban Sites

Description of Readiness Levels	Time to Move-In
1. Completed building ready for painting and carpeting	3 to 4 months
2. Refine office and support areas and install walls and major partitions (complete utility installation)	9 to15 months
3. Upgrade/development of building • Rough out floor plans by functional use • Remove any hazardous materials • Upgrade/replace all utilities/services • Address structural and facade issues	18 to 24 months
4. Development-ready building • Ownership/title cleared and ready for sale • Proper zoning in place for office/R&D • Assessment of building to meet code and provide adequate parking • Permitting agencies poised for approvals • Infrastructure within reasonable access • Compatible adjacent land use	24 to 30 months
5. Older building or old mill complex needing substantial upgrade	> 30 months

Office Space Requirements

Industry/Segment	Office Space Requirements (Number of Employees)
Renewable/Alt. Energy	Office staff (5 - 20) that may grow over time
Aero/Defense/Security	Range: satellite support office (50-150) up to major operation (1,000+)
Financial Services	Range: small back office (50-250) up to major operation (500+)
Prof/Tech/Creative/IT Serv.	Range: small office (5-25) up to major firm (150+)
Mgmt. of Companies/HQ	Range: small HQ office (25-50) up to major HQ (250+)

Office Space Requirements by Number of Employees

Employees	225 SF Per Person	250 SF Per Person	300 SF Per Person
25	6,250	6,250	7,500
50	11,250	12,500	15,000
100	22,500	25,000	30,000
150	33,750	37,500	45,000
250	56,250	62,500	75,000
500	112,500	125,000	150,000
1,000	225,000	250,000	300,000

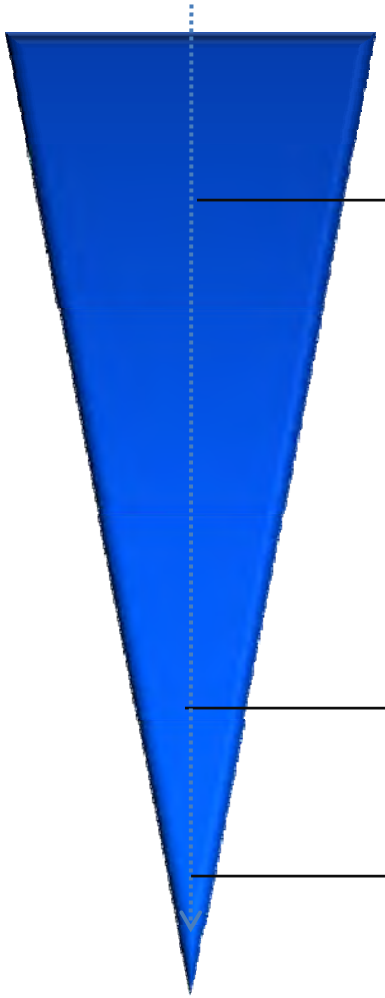

- 225 SF/person is typical for a back office while 300 SF/person is for headquarters or smaller operations.
- Actual space requirements may be expanded if there are large training and conference room or cafeteria requirements.

Real Estate/Facility Requirements by Target Industry

Industry/Segment	General Office Space	R&D/Lab With Office	Distribution/ Warehousing	Manufacturing With Office	Other Specialized Space	Home Office
■ • Biotech/Pharmaceuticals		■		Pharma Grade		
■ • Medical Equipment		■		Pharma Grade		
■ • Marine Science		■		■		
■ • Computers/Electronics		■		Clean Rooms		
■ • Food Processing				Food Grade		
■ • Fabricated Metals				■		
■ • Plastics (Resin/Parts/Products)				■		
■ • Renewable/Alternative Energy	Class A/B	■		■		
■ • Aerospace/Defense/Security	Class A/B			■		
• Institutional Healthcare Services					■	
• Institutional Education Services					■

■ • Financial Services	Class A/B					
■ • Prof/Tech/Creative/IT Services	Class A/B					■
• Transportation/Distribution			■			
• Hospitality/Rec./Culture/Tourism					■	
• Mgmt. of Companies/HQ	Class A					

■ State Target Industry

Location Selection Decision Process by Prospective Companies

1. Screen "A"
> Geographic preference
> Metro area size preference

2. Screen "B" . . . Value Proposition
> Logistic positioning (time of travel)
> Air access (cost and flights)
> Industry presence
> Workforce (quantity/quality of skills)
> Education and training resources
> Overall costs (real estate, labor, taxes, insurance, energy, etc.)
> Ability to recruit staff to an area (quality of life/cost of housing)

3. On-Site Tour and Incentive Analysis
> Availability of real estate
> Costs and incentives analysis

4. Final Decision

Next Steps

Phase I Activities

- Complete format assessment with SWOT analysis
- Develop external marketing materials (state and region level)

Phase II Activities

- On-site review of priority sites
- Collect further details on sites
- Complete site-level assessment
- Submit assessment to region

Phase III Activities

- Marketing of sites
